Precipitation probability					
10%	10%	20%	30%	30%	10%

Forecast for Wednesday 14 Oct 2020

Weather: A dry and bright start to the day though with patchy low cloud over the summits. The cloud will lift and break during the morning, allowing sunny spells and a scattering of showers to develop during the afternoon. Any showers dying out in the evening with clear spells becoming predominant

Chance of cloud free mountain/hill tops above 800m: 60-70% initially, with cloud around 400-450m but becoming 100% around noon, with cloud above the summits.

Visibility: Poor or very poor at height initially, with neighbouring hills barely visible but improving rapidly during the morning. Very good in the afternoon, with distant hills becoming clearly visible.
